

WHAT SETS TARACON APART

We build better buildings. A legacy of strength and a passion for innovation motivates our craftsmen to pursue prestressed construction solutions. As a family that builds on our vision of life's true principles, we strive to enhance tomorrow by providing solutions as solid as concrete.

Durable, economical, and beautiful finishes

OUR STORY

Taracon grew from a small family business to a reliable industry partner as a result of work ethic and strong family values instilled in each employee. Excellence, precision, and commitment are at the core of our organization, and new design demands stimulate our pursuit of innovation. Our team is dedicated to fully understanding each project goal, while providing creative solutions to enhance the design and function of every job.

Choose Taracon Precast for your next project and discover why our clients keep coming back for more:

- Highest quality construction standards
- Adherence to project specifications
- Faster construction times
- Lower project costs

Taracon Precast
is proud to be a
AA, C3

Precast Concrete

BENEFITS

FIRE RESISTANT

INTEGRATED, HIGH-QUALITY INTERIOR FINISHES

HIGHLY DURABLE, MAINTENANCE FREE

HIGH THERMAL EFFICIENCIES

FLEXIBLE, HIGH-QUALITY EXTERIOR FINISHES

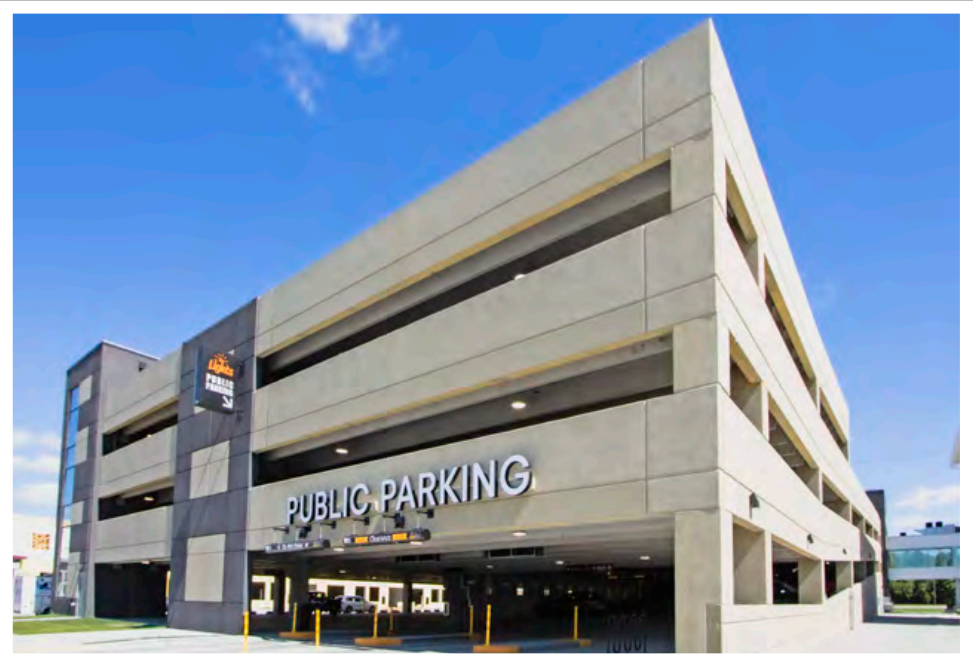

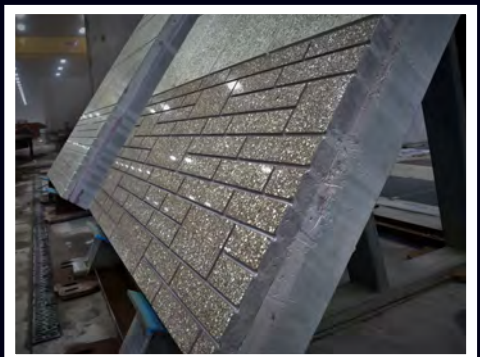

EFFICIENT, EXPEDITED CONSTRUCTION

Attention to detail is intrinsic to our culture. It gives our team the opportunity to provide the highest quality product at an exceptional value.

POLISHED AND BRUSHED PRECAST

Polished precast uses a series of diamond grinding wheels to polish the surface. This results in exposure of the aggregate with a smooth polished finish similar to polished granite.

Brushed precast uses a series of brushes to add a textured finish. This results in a textured finish that has a smooth brushed/polished finish.

SOLUTIONS

Our partners in the construction industry deserve a consistent, high quality product for each and every job performed. Trust our AA, C3 PCI Certified plant to get the project done right, on time, and within budget.

Taracon Precast provides high quality, energy efficient building structure options for a wide variety of applications, including:

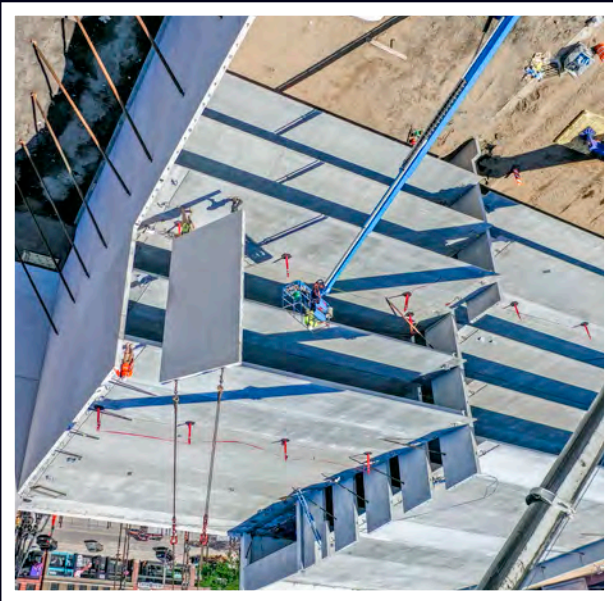

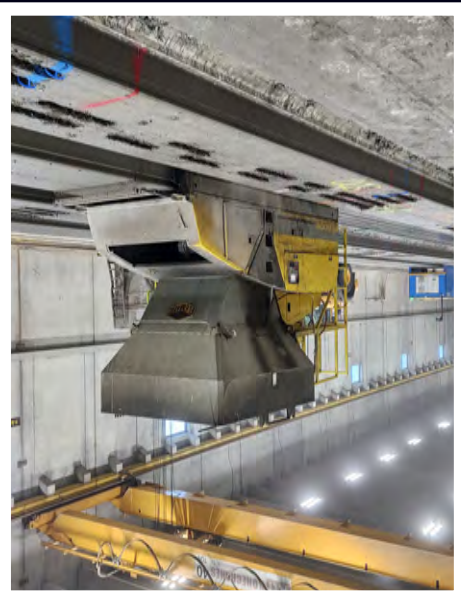

- Residential buildings
- Commercial buildings
- Mixed use buildings
- Parking structures
- Industrial complexes
- Warehouses
- Correctional facilities
- Retail locations
- Educational facilities

Where your { Dreams | Ideas | Decisions | Designs } meet innovation, and unbeatable craftsmanship (and this we cast in stone).

TO INSTALLATION

PRECAST

Precast solutions are versatile, dynamic, and resilient; eliminating labor, time, and finishing. Low maintenance and energy efficient, our creative solutions offer years of functionality with endless building purposes.

INCEPTION

Through each step of the design-build process, we exceed expectations by making the client's vision our own, while looking for opportunities to improve each project.

VALUE ENGINEERING

Our team of experienced designers and engineers review objectives, work to enhance the vision and functionality of every job, redefining what is possible.

FABRICATION

We produce high-quality, innovative, and accurate building solutions in our PCI certified facility.

INSTALLATION/ERECTION

Construction components arrive at the job site ready for installation, saving time and money spent on labor and materials.

LOGISTICS

Taracon solutions are full service; including coordinating logistics, managing on-time delivery, and planning erection.
